As Certified Community Behavioral Health Clinics (CCBHC) in Peekskill and Mt Vernon, we provide a variety of comprehensive services to increase the availability and accessibility of care that is person and family centered for children, adolescents and adults in our communities.

In addition to providing a range of evidence-based services that include; mental health and addiction treatment, health monitoring, 24/7 crisis intervention and psychiatric services, individuals in these communities will now have access to peer support, employment and education services, care management and coordination; including assistance with connecting to medical providers, when needed.

Our CCBHC’s provide support and services to any individual in need, regardless of their ability to pay. Our CCBHC team provides in-person services in the clinics, in the community and in the consumer’s home. We also provide tele-health services to engage with individuals where they are most comfortable. Services include, but are not limited to, assistance with housing, food insecurity, entitlements, transportation, crisis planning and stabilization, medical concerns, advocacy, employment/education needs and linkage to community resources.

Through CCBHC our goal is to provide wrap around services that help to integrate care for individuals in the communities that we serve. When they come to us, we are there to assist and guide them thru all of life’s challenges.

Consumer Testimonials:

“You made the difficult process of finding a job bearable. Thank you for your unwavering guidance and support. It has meant the world to me”. Signed, “With (immense) gratitude”, from a CCBHC Consumer

“Thank you for an excellent staff starting at the front door and including the doctors, therapists and all the individuals in your clinic. The care, compassion and empathy I receive from your team is amazing-they are always there helping me. I am truly grateful for all of you, you’re truly a blessing”. - from a CCBHC Consumer
