

MyHeritage Adds Millions of Jewish Historical Records in Collaboration with JewishGen

continued from page 4

"We are delighted that a significant percentage of our historical records will now also be available via MyHeritage," said Avraham Groll, Executive Director of JewishGen. "The collaboration with MyHeritage will help millions of people across the world learn more about their Jewish roots."

MyHeritage is the leading global discovery platform for exploring family history. With billions of historical records and family tree profiles, and with sophisticated matching technologies that work across all its assets, MyHeritage allows users to discover their past and empower their future. MyHeritage DNA is one of the world's largest consumer DNA databases. MyHeritage is the most popular DNA test and family history service in Europe. Since 2020, MyHeritage is home to the world's most advanced AI technologies for animating, repairing, enhancing, and colorizing historical photos. www.myheritage.com

JewishGen was founded in 1987 and serves as the global home for Jewish genealogy. Featuring unparalleled access to more than 30 million re-

cords, it offers unique search tools, along with opportunities for researchers to connect with others who share similar interests. There is no charge to access JewishGen's resources. JewishGen is an affiliate of the Museum of Jewish Heritage – A Living Memorial to the Holocaust. For more information, visit: www.jewishgen.org

The Museum of Jewish Heritage – A Living Memorial to the Holocaust is New York's contribution to the global responsibility to never forget. The Museum is committed to the crucial mission of educating diverse visitors about Jewish life before, during, and after the Holocaust. The third-largest Holocaust museum in the world and the second-largest in North America, the Museum of Jewish Heritage anchors the southernmost tip of Manhattan, completing the cultural and educational landscape it shares with the Statue of Liberty and Ellis Island. The Museum receives general operating support from the New York City Department of Cultural Affairs and New York State Council on the Arts. For more information, visit mjhnyc.org.

Funding Available to Support Nonprofits and Religious Organizations Impacted by Pandemic

The Westchester County Office of Economic Development is now accepting applications for the 2022 Westchester County Business FIRST grant program. This year's grant program will provide up to \$17 million to support nonprofits and religious organizations facing challenges as a result of the COVID-19 crisis. Applications will be accepted online starting February 22 and the application period will remain open for about four weeks.

Westchester County Executive George Latimer said, "Our nonprofits and religious organizations have been a vital resource to the communities they support throughout the duration of the pandemic. This round of grant funding is an investment in organizations that are critical to our residents and in need of financial relief."

Westchester County Director of Economic Development Bridget Gibbons said, "Westchester County's nonprofits and religious organizations play an important role in our community and our economy. Many of these organizations have faced an increased demand for services, significant costs for personal protective equipment (PPE), loss of funding and other pandemic-related challenges that have impacted their operating

costs and income. This grant funding will help to cover some of their expenses as they continue providing invaluable services throughout our communities."

Westchester County Business FIRST: Financial Investments for Recovery and a Sustainable Tomorrow provides immediate financial relief to organizations in Westchester County that have been negatively impacted by the pandemic. This round of funding will provide qualifying nonprofits and religious organizations with grants of up to \$45,000. Grants will be provided on a reimbursable basis only and recipients must provide receipts to Community Capital before any funds will be disbursed.

The County is offering technical assistance to help nonprofit and religious organizations with the application process. The goal is to ensure that the process to complete the application and submit it, along with the required documentation, isn't a barrier to potential applicants. To facilitate this a number of experienced nonprofits will be providing support, led by Jan Fisher, Executive Director of Nonprofit Westchester. Organizations needing help applying for a grant can email Business-FIRST@westchestergov.com.

WJCS Among Those Receiving Grants from Claims Conference to Support Holocaust Survivors

Gideon Taylor, President of the Conference on Jewish Material Claims Against Germany (Claims Conference), announced the allocation of \$720 million USD in funds to more than 300 social welfare organizations globally to support home care and supportive services for frail and vulnerable Holocaust survivors.

Gideon Taylor, President of the Claims Conference, said, "We are proud to announce this significant allocation at a time when these funds are critical, due to the age, poverty and increasing disability of our waning survivor population, and as they also continue to face the ongoing uncertainty and threat of COVID-19. We know these funds provide vital support during these difficult times."

In recent years, during negotiations with the German government, the Claims Conference pressed the urgent need to increase home care funding for Holocaust survivors both in the United States and across the globe. The new allocations are distributed to social welfare organizations in regions where significant numbers of survivors live, to ensure vital services, such as home care, medical care, emergency assistance and food are available for Holocaust survivors in those regions. Funds for these vital services provide a critical lifeline to frail, elderly Holocaust survivors in need around the world, enabling them to live out their remaining days in the dignity that was stolen from them in their youth.

Greg Schneider, Claims Conference Executive Vice President, said, "Survivors will be supported wherever they live, whether war-torn areas or conflict zones, and no matter the obstacle. Whether in the face of the ongoing pandemic, issues of inflation, or threat of war, we are committed to providing home care, food and medicine to elderly poor Holocaust survivors. We will continue to fight for more year-after-year to ensure every survivor has the care they deserve."

These considerable funds constitute one of the largest allocations from any grant-making organization globally in one year and the largest

Seth Diamond

amount ever allocated for Claims Conference in a single year. In 2021, the Claims Conference distributed \$653 million USD in grants to over 300 social service agencies worldwide and this year the Claims Conference estimates that the funds, through the grants and partner organizations, will reach approximately 120,000 survivors.

Among the organizations in the United States to receive grants is Westchester Jewish Community Services (WJCS), one of the largest not-for-profit human service agencies in Westchester County. The funds allow WJCS to provide vital services to Holocaust survivors in Westchester.

"We are grateful to the Claims Conference for their tireless efforts to obtain these much-needed additional resources," said WJCS CEO Seth Diamond. "WJCS is honored to serve Holocaust survivors in Westchester, and we know these past two years have been very difficult for survivors. These additional funds will allow us to help make the next years healthier and more meaningful for the survivors we serve."

Mark Sisisky, President of the American Jewish Joint Distribution Committee (JDC), said, "I cannot overstate how critical these lifesaving funds from the Claims Conference are to ensure the well-being of survivors in the former Soviet Union. As we see in Ukraine, and throughout the region, crisis can erupt at a moment's notice and increase the plight and needs of survivors and other elderly. The services we provide them in partnership with the Claims Conference are a literal lifeline of care, dignity, and hope for better days."

Representatives from 23 major Jewish organizations founded the Conference on Jewish Material Claims Against Germany (Claims Conference) in 1951 in response to the West German government's promise to make "material amends" to Jewish survivors of the Holocaust. The Claims Conference represents world Jewry in negotiating for compensation and restitution for Jewish survivors of the Holocaust and their heirs.

To be eligible for a grant, the organization's primary location must be in Westchester County. The organization must be currently open with plans to stay open, or temporarily closed with plans to reopen in 2022.

Organizations who received funding from the federal government through the Paycheck Protection Program (PPP) or the Economic Injury Disaster Loan (EIDL) are eligible to apply but the use of the 2022 Business FIRST grant funds should not duplicate purposes. Organizations who received a Business FIRST Grant in 2020 from Westchester County are not eligible for this grant opportunity, nor are organizations who received or will receive a Shuttered Venue Operators Grant from the SBA.

The Westchester County Business FIRST grant program is being administered by the West-

chester County Office of Economic Development through the American Rescue Plan.
